DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Approval of Noise Compatibility Program for Tweed-New Haven Regional Airport

AGENCY: Federal Aviation Administration, DOT

ACTION: Notice

SUMMARY: The Federal Aviation Administration (FAA) announces its findings on the noise compatibility program submitted by the Tweed-New Haven Airport Authority under the provisions of Title I of the Aviation Safety and Noise Abatement Act of 1979 (Public Law 96-193) and 14 CFR Part 150. These findings are made in recognition of the description of federal and non-federal responsibilities in Senate Report No. 96-52 (1980). On November 26, 2012, the FAA determined that the noise exposure maps submitted by the City of Portland under Part 150 were in compliance with applicable requirements. On May 9, 2013, the New England Region Airports Division Regional Manager approved the noise compatibility program. Seventeen of the proposed program elements were approved, or approved in part. Four of the elements were disapproved.

EFFECTIVE DATE: The effective date of the FAA's approval of the Tweed-New Haven Regional Airport noise compatibility program is May 9, 2013

Documents reflecting this FAA action may be obtained from the same individual.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA has given its overall approval to the Tweed-New Haven Regional Airport noise compatibility program, effective May 9, 2013.

Under Section 104 (a) of the Aviation Safety and Noise Abatement Act of 1979 (hereinafter the Act), an airport operator who has previously submitted a noise exposure map may submit to the FAA a noise compatibility program which sets forth the measures taken or proposed by the airport operator for the reduction of existing non-compatible land uses and prevention of additional non-compatible land uses within the area covered by the noise exposure maps.

The Act requires such programs to be developed in consultation with interested and affected parties including local communities, government agencies, airport users, and FAA personnel.

Each airport noise compatibility program developed in accordance with Federal Aviation Regulation (FAR), Part 150 is a local program, not a federal program. The FAA does not substitute its judgment for that of the airport proprietor with respect to which measures should be recommended for action. The FAA's approval or disapproval of FAR Part 150 program recommendations is measured according to the standards expressed in Part 150 and the Act, and is limited to the following determinations:

(a) the noise compatibility program was developed in accordance with the provisions and procedures of FAR Part 150;

(b) program measures are reasonably consistent with achieving the goals of reducing existing non-compatible land uses around the airport and preventing the introduction of additional non-compatible land uses;

(c) program measures would not create an undue burden on interstate or foreign commerce, unjustly discriminate against types or classes of aeronautical uses, violate the terms of airport grant agreements, or intrude into areas preempted by the federal government; and

(d) program measures relating to the use of flight procedures can be implemented within the period covered by the program without derogating safety, adversely affecting the efficient use and management of the navigable airspace and air traffic control systems, or adversely affecting other powers and responsibilities of the Administrator as prescribed by law.

Specific limitations with respect to FAA's approval of an airport noise compatibility program are delineated in FAR Part 150, Section 150.5. Approval is not a determination concerning the acceptability of land uses under Federal, state, or local law. Approval does not by itself constitute a FAA implementing action. A request for Federal action or approval to implement specific noise compatibility measures may be required, and an FAA decision on the request may require an environmental assessment of the proposed action.

Approval does not constitute a commitment by the FAA to financially assist in the implementation of the program nor a determination that all measures covered by the program are eligible for grant-in-aid funding from the FAA under the Airport and Airway Improvement Act of 1982. Where Federal funding is sought, requests for project grants must be submitted to the FAA Regional Office in Burlington, Massachusetts.

The Tweed-New Haven Airport Authority submitted to the FAA, on November 13, 2012, noise exposure maps, descriptions, and other documentation produced during the noise compatibility planning study conducted from 2010 to 2012. The Tweed-New Haven Regional Airport noise exposure maps were determined by FAA to be in compliance with applicable requirements on November 26, 2012. Notice of this determination was published in the *Federal Register* on February 6, 2013.

The Tweed-New Haven Regional Airport study contains a proposed noise compatibility program comprised of actions designed for implementation by airport management and adjacent jurisdictions from the date of study completion to beyond the year 2018. The Tweed-New Haven Airport Authority requested that the FAA evaluate and approve this material as a noise compatibility program as described in Section 104 (b) of the Act. The FAA began its review of the program on November 26, 2012, and was required by a provision of the Act to approve or disapprove the program within 180 days (other than the use of new flight procedures for noise control). Failure to approve or disapprove such a program within the 180-day period shall be deemed to be an approval of such a program.

The submitted program contained 21 proposed actions for noise mitigation on and off the airport. The FAA completed its review and determined that the procedural and substantive requirements of the Act and FAR Part 150 have been satisfied. The New

England Region Airports Division Manager therefore approved the overall program effective May 9, 2013.

FAA's determinations are set forth in detail in a Record of Approval endorsed by the Acting Associate Administrator on May 9, 2013. The Record of Approval, as well as other evaluation materials and the documents comprising the submittal, are available for review at the FAA office listed above and at the administrative offices of Tweed-New Haven Regional Airport.

Issued in Burlington, Massachusetts on May 9, 2013

Mary Walsh
Manager, Airports Division
FAA New England Region
